Main Describe of The Product:

1. Cat.6 Toolless Unshielded KJ. The products are used in the Equipment Rooms & Work area as communication connectors of the intelligent Buildings.
2. The structure of the Keystone Jack is compact and toolless. The special screw thread cable-punching cover make your work more easy and fast, and it can also prevent the cable from slipping off from the IDC ports.
3. According to the standard of ISO/IEC 11801:2002 Class E & ANSI/TIA/EIA/568-B.2-1 CAT.6 standard.
4. Connecting: RJ45 port for UTP patch cord and the IDC port for UTP horizontal cabling.
5. According with the ROHS requirement.
6. Fitting for Cat.6 Cabling systems, can also be used on Cat.5 and Cat.5e cabling systems.

Technique Characteristics :

1. Housing and other plastic parts' material: PC UL94V-0
2. 8 Pin of the RJ45 jack: Phosphor bronze with golden plated 6inch, 15inch, 30inch, 50inch at option. Inserting Duration: 750 times.
3. IDC Clips: Tinned phosphor bronze pins. Fitting for 22AWG/23AWG/24AWG Cables. Punching Duration: 250 times.
4. Punching Tool: Toolless type.
5. Testing condition of transmitting capability : 250MHz
